

61-100, 61-200 Series - Ball Cone® Check Valve

- Bronze with reinforced ball-cone check and stainless steel springs
- Resistant to chemicals and corrosion
- 1/2" psi opening pressure
- Tight shut-off with liquid media
- 125 psig steam rating
- Straight-through design minimizes velocity changes
- Install in any line position

62-100 Series - Stainless Steel Ball Cone® Check Valve

- Stainless Steel with RPTFE ball check and stainless steel springs
- For applications in corrosive environments
- Rated 400 psig WOG, cold non-shock
- Spring loaded for tight seating action
- 125 psig saturated steam
- Straight-through design minimizes velocity changes

61-500, 62-500 Series - Soft Seat Check Valve

- Stainless steel springs and elastomeric seats for tight shut-off
- Resistant to chemicals and corrosion
- 1/2" psi opening pressure
- Bubble tight shut-off, ideal for gaseous service
- 400 psig WOG
- Straight-through design minimizes velocity changes

60-100, 60-700 Series - Bar Stock Needle Valve

- 10,000 psig for cold, non-shock service
- Temperatures to 550°F
- Metal-to-metal seat and disc design
- High grade carbon graphite packing
- PTFE packing for 316SS valves
- Back seats when fully open, preventing blow-out and leak-
