

Valves

SERIES 14B  
Ball Type Valve

No. 14B . . VNS# MM-14B

- For McDonnell & Miller Series 47, 67 and 70 boiler control blow down valve replacement.
- Full-ported ball action valve.
- Teflon seats provide bind free, leak tight ball movement.
- Easy-open handle keeps hands away from hot water and steam.
- Gasket and mounting screws included.
- Maximum pressure, 30psi.

Test-N-Check Valves

Model TC-4 . . MM-TC-4

Meets CSD 1 Code

TC4 Test-N-Check valves simplify the testing of low water cut-off operation on hot water boilers by eliminating the need to drain the system. They also prevent false signals due to water flow through the equalizing piping.

Water and Air Flow Switches indicate the presence or absence of liquid or gas flow through piping or ductwork. They can sound signals, start or stop pumps, light warning lights, or otherwise initiate action in heating and cooling systems or process applications. A wide variety of models including fire sprinkler system applications are available.

Cartridge Valve & Strainer Assembly Kit

Model CTRD-5 . . . MM-CTRD-51

Model CTRD-101 . . MM-CTRD-101

- For McDonnell & Miller Series 101-A, 47, 247, 847, 51, 551-S, and 851 water feeders with hex-shaped ports.
- Easy two-minute in-line changeout saves time and money.
- Noryl resin valve is impervious to corrosion and provides longer life.
